EDUCATION

MS in Engineering Management — Arizona State University August 2024 – May 2026

- Coursework: Data Analytics, , Strategy, Operations, Project/Product Management, b2b sales

BS in Electronics and Telecommunication — Savitribai Phule University Sept 2016—April 2021

- Coursework: Communication Systems, Microcontrollers, Computer Networks, Data Structures

CORE SKILLS

- **Sales Tools & Systems:** Advanced Excel, CRM Systems, Salesforce, ERP Systems, PeopleSoft, ServiceNow, Confluence, Jira, SQL, Python, Customer and Sales Data Tracking
- **Sales Coordination:** Sales Order Processing, Customer Relationship Management, Lead and Opportunity Tracking, Quote and Proposal Support, Sales Reporting, KPI Tracking, Pipeline Management, Cross-Functional Coordination, Account Support, Customer Issue Resolution, Vendor Coordination, Forecasting, and Process Improvement

PROFESSIONAL EXPERIENCE

Admissions Representative — Arizona State University September 2024 – May 2026

- Managed leads and applicant outreach in Salesforce CRM, guided students through application requirements, and scheduled calls with regional admissions representatives across the United States.
- Resolved application, transcript, and international document issues using PeopleSoft ERP, escalated corrections to relevant departments, and communicated next steps and resolution timelines.
- Created SOPs and documented recurring admissions issues, reporting findings to the Director of Admissions Services to support corrective action and improve consistency in student support.

System engineer — Tata Consultancy Services February 2022 – July 2024

- Provided L2 support for GE FieldCore's project management application serving 10,000+ users worldwide, resolving field technicians' event, PO, scope, and resource allocation issues through SQL data fixes.
- Troubleshot production issues using AWS CloudWatch logs, REST API payloads, and Postman microservice triggers; partnered with Finance and Contracts to reconcile data discrepancies and validated SAP-to-Oracle migration data for MENA.
- Led weekly GE stakeholder reviews, categorized recurring issues into data fixes, integration issues, manual fixes, and contract changes, and shared findings with developers to inform sprint backlog grooming.

Material Planner — Savli Infra Ltd. January 2020 – December 2021

- Sustained aggregate production at 181 tons/day with zero missed customer deadlines over 17 months by planning material requirements and monitoring multi-SKU inventory in Excel.
- Prevented production delays by tracking material consumption and coordinating replenishment with suppliers and internal teams to maintain timely availability of materials.
- Reduced material discrepancy disputes by standardizing daily reports and shift handovers in Excel, eliminating manual tracking gaps and improving inventory record accuracy.

CAPSTONE PROJECT

Smart Accessible Management Incubation—Honeywell Aerospace *Jan 2025—Apr 2025*

- Independently led an aerospace product incubation initiative from technology discovery to MVP, translating customer and market needs into product requirements.
- Advanced the MVP by assessing feasibility with engineering and aligning go-to-market positioning and messaging with marketing.
- Delivered a stakeholder-ready incubation case covering market opportunity, competitive risks, and MVP readiness.
